

Elementary

Elementary (K – 5)

Facilitating a personal relationship with Jesus and creating a Christian worldview are the focuses of NCCA, and to that end, all grades, K-8, begin the day with Bible class, prayer and devotions. Monthly Godly characteristics are emphasized and supported with chapel speakers' talks and scripture memorization.

Classroom curriculum is a combination of both faith-based and secular material. Science and history are always faith-based; math and some of the language arts curriculum is secular. However, all material is presented and connected to a faith in God's son, Jesus.
