

Middle School

Middle school is an **age of accountability** and a time to solidify lifelong spiritual disciplines. Grades 6-8 have high expectations in conduct, academia and leadership. Leading chapel, mentoring kindergarten reading buddies, and creating school-wide service projects are some of the responsibilities for middle schoolers.

The addition of electives adds a hands-on educational element to Grades 6-8. Classes such as Photography, Moviemaking, and Life Skills give students an opportunity to get creative and try new things.

Middle schoolers also enjoy special times of fellowship: presenting a dinner theatre, attending a fall spiritual retreat, and enjoying a spring trip to such places as Washington D.C., the Creation Museum, and Niagara Falls.
